Exterior area lighting

Moving enegy forward: a commitment that goes beyond reliability

At Evergy, we know you expect electricity to always be there. And you should. So we've worked hard to build one of the best reliability records in the industry.

We also want you to feel safe and secure. That's why we offer dusk-to-dawn leased lighting options for home or work.

Turn lights on, turn crime off

Evergy offers a variety of lighting fixtures and applications for every security need. From backyards to parking lots, loading docks to farm lots.

Our modern, efficient lights can increase productivity, and protect families, friends and employees. All are maintenance free and available for one easy-to-budget monthly charge on your electric bill.

Call **1-888-471-5275 (MO)** or **1-800-383-1183 (KS)** for installation and scheduling information. All fixtures are available on contracts ranging from one to three years. Reasonable monthly rates include installation, maintenance and electricity. Ornamental steel poles also are available at a nominal charge.

Choose the fixture that fits your space and application

AREA LIGHTING

4,500-lumen LED area light

This option is ideal for most residential applications.

It provides light comparable to a 70- or 100-watt high pressure sodium fixture and illuminates up to a 50-foot circle.

7,500-lumen LED area light

This option will work for residential or commercial applications where a little more light is wanted.

It provides light comparable to a 100- or 150-watt high pressure sodium fixture and illuminates up to a 65-foot circle.

13,000-lumen LED area light

This option can be used for commercial and some residential applications where a substantial amount of light is required.

It provides light comparable to a 250-watt high pressure sodium fixture and illuminates up to a 75-foot circle.

FLOOD LIGHTING

10,000-lumen LED flood light

Get light output comparable to a 150 or 250-watt metal halide/high pressure sodium fixture in this efficient commercial or rural fixture. Well suited to brighten parking areas, garages, outbuildings, paddocks or farm yards.

It projects a directional "fan" of light up to 100 feet.

23,000-lumen LED flood light

This flood light has an output similar to a 250- or 400-watt metal halide/high pressure sodium fixture. It is available for both commercial and rural applications where a bigger area needs to be lit. It can be used to light up parking areas, garages, outbuildings, paddocks and farm yards.

It projects a directional "fan" of light up to 140 feet.

45,000-lumen LED flood light

This LED offering provides light comparable to a 1,000-watt metal halide/high pressure sodium fixture. This is the outstanding choice for industrial and large commercial applications, or wherever illumination is needed over a large area.

It projects a directional "fan" of light up to 180 feet with minimal backlight effect.
